Profile

- Kiran completed her degree in physiotherapy in February 2004.
- She started her career working in private practice and was responsible for assessing and administering treatment for acute and chronic musculoskeletal injuries, sustained through sport, work or as a result of degenerative conditions.
- Kiran has worked as a case manager since 2008. She is very experienced in assessing injured people who have sustained injuries in their work place, in the public sphere or as a result of road traffic accidents.
- She assesses injury impact paying great attention to recovery to date, treatment effectiveness/ delays, identifying gaps in treatment or additional treatment needs and assessing the impact on active daily living, social activities and work.
- Kiran has excellent knowledge of both NHS and private treatment services, and working closely with GP practices, social services and hospital and community treatment teams.

- Case Management Society UK (CMSUK)

Testimonial

"I always strive to support the injured person by assessing for and facilitating the necessary treatment. I really enjoy providing clinical advice to help the injured person understand their injury and engage in their treatment. Seeing them achieve a near normal recovery an working with all the key stakeholders is what I love about being a case manager."
