## Expertise

- Multi trauma injury
- Brain injury
- Psychological injury
- Mental health
- Behavioural difficulties
- Vocational assessments
- Vocational redirection
- Behavioural and cognitive assessments
- Arrangement of specialised care packages

## Profile

- Caroline graduated in psychology and counselling skills in 2006.
- She has worked as a Day Rehabilitation Programme Director responsible for the development and running of day programmes for adults with barriers to independence, specialising in supporting people with challenging behaviour, brain injury and dual diagnosis. This also included completing functional, social, behavioural and vocational assessments with a focus on securing long term employment.
- She has worked as a Behavioural Therapist with adults with acquired brain injuries. In this role she worked to assess her client's emotional, cognitive and environmental needs and formulate rehabilitation plans. She was responsible for developing strong links in the community for assisting her clients return to vocation, leisure and social activities.
- In Caroline's current role she completes specialist neurological initial needs assessment for persons with acquired brain injury. Her specialist skills include cognitive assessments, vocational assessments, setting up specialised care packages, advocacy for people with communication challenges, reintroduction of the injured person to suitable social, leisure and vocational interests.

## Testimonial

"My passion is supporting those with barriers to independence. My career has been spent working collaboratively with other disciplines and resources to support people to go through their rehabilitation pathway as effectively as possible".

## Continued Professional Development

- Corporate are committed to facilitating the requirements for on-going CPD for our registered professionals, so that they can demonstrate their current competence in their chosen field.
- We have an external expert clinical panel who contribute to our clinical governance for continuously improving the quality of our services and safeguarding high standards of care.
