## Profile

- Julie qualified as a general nurse in 1996. She has gained vast clinical experience in neurological and orthopaedic rehabilitation
- She has experience as a specialist brain injury case manager for both adult and paediatric cases since 2002.
- She is also an expert in facilitating and managing complex care packages.
- She has great knowledge and working practice in dealing with the court of protection and public guardianship.

## Testimonial

"I have been a registered nurse since 1996, and developed my case management skills in Phoenix, Arizona where I spent several years managing a Neuro-Rehabilitation Unit. As an Advanced Practitioner with BABICM (British Association of Brain Injury Case Managers) for the last 10 years, I have gained an in depth knowledge of brain injuries from mild concussions to ventilated patients requiring 24 hour care. I enjoy the challenge of maximizing my client's outcomes, so that they are enabled to have a degree of independence and quality of life, despite life changing injuries".

## Continued Professional Development

- Corporé are committed to facilitating the requirements for on-going CPD for our registered professionals, so that they can demonstrate their current competence in their chosen field.
- We have an external expert clinical panel who contribute to our clinical governance for continuously improving the quality of our services and safeguarding high standards of care.
