## Expertise

- Musculoskeletal injury
- Orthopaedic injury
- Multi trauma rehabilitation
- Pain management
- Psychological injury
- Mental health conditions
- Learning disabilities
- General medicine and surgery
- Palliative care
- Return to work programmes
- Vocational advice

## Profile

- Louise qualified as a general nurse in 1983 and has a wide range of experience in general surgery, orthopaedic, maxillofacial, general medicine, urology, gynaecology, mental health, palliative care and oncology.
- She has worked in both the United Kingdom and Canada as a nurse and she has worked as a staff nurse through to departmental manager.
- Louise has worked as a health advisor assessing and formulating action plans for addressing health issues and the resulting barriers to work and life. She developed extensive knowledge of the different public and private services available for effective sign posting and setting up condition management plans.
- She has also worked as a disability analyst completing physical and mental health assessments.
- She has worked as a Rapid Deployment Team Manager to help set up the Healthier You, National Diabetes Prevention Programme in the East Midlands and Leicestershire.

## Testimonial

"I really enjoy meeting people, assessing how they are managing with the injuries they have sustained, and being able to offer advice and support them to move forward in their recovery."

## Continued Professional Development

- Corporé are committed to facilitating the requirements for on-going CPD for our registered professionals, so that they can demonstrate their current competence in their chosen field.
- We have an external expert clinical panel who contribute to our clinical governance for continuously improving the quality of our services and safeguarding high standards of care.
