Profile

- Jennie qualified as a registered nurse in 1997. She has worked within the NHS predominantly in the area of neurosurgical and intensive care then moving to rehabilitation and community support for brain injured clients.
- From 2012 to 2017 she has worked as an acquired brain injury nurse, providing complex case management for those with an acquired brain injury across 3 clinical commissioning groups.
- Jennie has received written plaudits from NHS England for the model and pathways developed for East Sussex patients.

Testimonial

"As a case manager it is rewarding working with vulnerable adults co-ordinating their journey, ensuring their safety, rehabilitation, health and wellbeing needs are met. I strive to be an advocate for the injured person when required ensuring the injured person has a voice. I take a holistic approach to ensure their rehabilitation and recovery are optimised enabling the individual to reach their potential and at the very least have an improved quality of life".

Continued Professional Development

- Corporé are committed to facilitating the requirements for on-going CPD for our registered professionals, so that they can demonstrate their current competence in their chosen field.
- We have an external expert clinical panel who contribute to our clinical governance for continuously improving the quality of our services and safeguarding high standards of care.
