## Profile

- Stephanie qualified as a nurse in 2013. She has a range of experience of working with clients in the acute and community setting and has worked with clients of varying ages from anti-natal to end of life care in the elderly.
- Stephanie is highly experienced in working with children under 5 years old completing health and development checks. She strives to deliver support and advice to families in respect of parenting and play skills, immunisations, accident prevention, toilet training, behaviour and sleep whilst working closely with partner agencies to ensure optimal support is in place.
- Stephanie completes thorough assessments on the home environment and any risk there may be to the child. She is able to establish whether any further support or equipment is needed and whether their mobility/ physical capabilities enable them to manage at home. Stephanie also works to assess and manage any safeguarding concerns of vulnerable individuals in the home.
- Stephanie is highly experienced in communicating in difficult situations such as domestic violence cases and cases involving suicidal thoughts.
- Her clinical experience includes medical condition management, wound care, chronic disease management, tracheostomy care, PEG feeds and administration of medication through PEG, catheter, continence, pressure area and personal care.
- Stephanie is experienced in working with clients of all ages with complex health needs in their own homes and in the community. She has excellent skills in assessing the risks and needs of her clients, devising individual holistic care plans, regularly evaluating and ensuring the clients receive evidence based care.
- For clients with complex care needs, Stephanie is able to develop, support and train carers to undertake clinical health tasks including oxygen, suction, PEG care, PEG feeds and medication,

tracheostomy care and Epilepsy rescue medications to ensure safe client care.

- Stephanie has completed various training courses including: palliative care, handling difficult conversations, ear care, leg ulcer management and epi pen training.

## Continued Professional Development

- Corporé are committed to facilitating the requirements for on-going CPD for our registered professionals, so that they can demonstrate their current competence in their chosen field.
- We have an external expert clinical panel who contribute to our clinical governance for continuously improving the quality of our services and safeguarding high standards of care.
