

Associate Case Manager

Corporé is one of the UK's largest independent providers of rehabilitation case management services and absence, injury and risk management. An award-winning rehabilitation provider, our expert clinical Case Managers have assisted and supported individuals who have been involved in catastrophic and multi-trauma accidents, back to an optimum return to function, work and independence.

A dedicated provider of an evidence-based service of the highest clinical quality, we are expanding our industry-leading team and are looking for dedicated and compassionate self-employed Associate Case Managers with capacity to take on new cases to become part of our large network.

Ideally with a background in Occupational Therapy, Nursing or Physiotherapy, you will be experienced in supporting injured clients and their families, appreciating the impact of an injury and how it can change lives.

Using your excellent communication skills, you will support your clients, helping them identify and achieve their full potential and provide goal-focused rehabilitation with the aim of facilitating an optimum return to work and function.

You will have the autonomy to manage your caseload and will also have the access to clinical supervision with a Clinical Lead

The Role:

You will carry out immediate needs assessments and proactively case manage clients who often face life changing injuries.

Using your excellent communication skills, you will support your clients, helping them identify and achieve their full potential and provide goal-focused rehabilitation with the aim of facilitating an optimum return to work and function.

We Offer:

- Negotiable hourly rate, reflective of experience.
- Flexible workload
- Yearly case management conference
- External training events
