

Rehabilitation Case Manager

Opportunities are available for Rehabilitation Case Managers across the UK to join our industry-leading team. With a competitive salary and a dedication to providing the highest clinical quality and best practice to injured parties, this opportunity is not to be missed.

The Company:

Corporé is one of the UK's largest independent providers of rehabilitation case management services and absence, injury and risk management. An award-winning rehabilitation provider, our expert clinical Case Managers have assisted and supported individuals who have been involved in catastrophic and multi-trauma accidents, back to an optimum return to function, work and independence.

The Role:

You will carry out immediate needs assessments and proactively case manage clients who often face life changing injuries.

Using your excellent communication skills, you will support your clients, helping them identify and achieve their full potential and provide goal-focused rehabilitation with the aim of facilitating an optimum return to work and function.
